PLANT
PROPAGATING
MATERIAL

VITRO HELLAS was established in 1986 at Niseli Alexandraia of Imathia and is active in the fields of production, research and trading of high quality plant propagating material.

The company's mission is to produce and distribute plant material of optimal quality, through monitoring all the new trends in the agricultural sector and by expanding its partnerships and research activities, so as to develop new technologies, products and markets.

To achieve this mission, **VITRO HELLAS** relies on the advantages offered to its products by the technology and conditions used during production. Tissue culture techniques are characterized of fully aseptic plant material management conditions that, in combination with the organization of the respective laboratory and the greenhouse facilities, add to the obtained products:

-  **Genetic uniformity:** Assurance that each product possesses the characteristics of the variety indicated on the packaging and the accompanying documents.
-  **Absence of pathogens and diseases:** During both production and distribution.
-  **Growth Uniformity:** Homogeneity of the distributed material which can guarantee homogeneity of the final production.

The implementation of quality management systems is an indispensable precondition for the production of certified high quality products, which meet world market needs, support research and ensure environmental protection along with workers' health and safety.

VITRO HELLAS is certified according to ISO 9001:2015 for the «Production and Marketing of Plant Propagating Material» and certification number 041090003, as well as according to GLOBALGAP and certification number GGN.4052852728669.

With a view to promoting certified plant material whose main characteristic is the absence of viral diseases, the Company applies all provisions and technical regulations set by the Ministry of Rural Development and Food, regarding the production and marketing of plant propagating material and in particular that of fruit trees and vine.

King Gala®

Breeder:	KIKU S.R.L./G.M.B.H
Licensor:	KIKU S.R.L./G.M.B.H
Tree type:	Vigorous
Pollinators:	Granny Smith, Golden Delicious, Red Delicious, Fuji
Blossom:	Late
Harvest period:	Early August
Productivity:	Very good
Fruit set:	Very fast
Brix:	13°
Fruit flavor:	Crunchy and sweet flavor
Fruit size:	2A
Fruit color:	Red all over
Main Characteristics:	The biggest-fruited Gala, with the best red color. Perhaps the earliest in the Gala family. The fruit has a high specific gravity

King Roat® Red Delicious

Breeder:	KIKU S.R.L./G.M.B.H
Licensor:	KIKU S.R.L./G.M.B.H
Tree type:	Semi Spur
Pollinators:	Granny Smith, Gala, Golden Delicious, Fuji
Blossom:	Late
Harvest period:	Early September
Productivity:	Very good
Fruit set:	Very fast
Brix:	13,5°
Fruit flavor:	Crunchy and sweet flavor
Fruit size:	3A
Fruit color:	Red all over
Main Characteristics:	The most well-formed Red Delicious with excellent coloring and flavor

King Fuji®

Breeder:	KIKU S.R.L/G.M.B.H
Licensor:	KIKU S.R.L/G.M.B.H
Tree type:	Spur
Pollinators:	Granny Smith, Gala, Golden Delicious, Red Delicious.
Blossom:	Late
Harvest period:	Mid October
Productivity:	Very good
Fruit set:	Very fast
Brix:	13,5°
Fruit flavor:	Crunchy and sweet flavor
Fruit size:	3A
Fruit color:	Red all over
Main Characteristics:	Classic Fuji flavor with great color. It does not show the phenomenon of alternate bearing

Fuji Kiku® Fubrax

Breeder:	KIKU S.R.L/G.M.B.H
Licensor:	KIKU S.R.L/G.M.B.H
Tree type:	Vigorous
Pollinators:	Granny Smith, Gala, Golden Delicious, Red Delicious.
Blossom:	Late
Harvest period:	Mid October
Productivity:	Very good
Fruit set:	Very fast
Brix:	13°
Fruit flavor:	Crunchy and sweet flavor
Fruit size:	3A
Fruit color:	Red all over
Main Characteristics:	Intensive overcolour, also in the shadow part of the tree

Nimba®

Breeder:	COT INTERNATIONAL
Licensor:	COT INTERNATIONAL
Tree type:	Vigorous, open
Pollinators:	Pacific Red
Blossom:	Early
Harvest period:	Early May
Productivity:	Very good
Fruit set:	Fast
Brix:	16°
Fruit flavor:	Very sweet
Fruit size:	Very big 28-30mm
Fruit color:	Intense red
Main Characteristics:	Excellent very sweet flavor, variety that goes into production quickly. Crisp fruit

Early Bigi®

Breeder:	Battistini vivai
Licensor:	Battistini vivai
Tree type:	Mid- high Vigorous
Pollinators:	Burlat
Blossom:	Early
Harvest period:	Early May
Productivity:	Very good
Fruit set:	Fast
Brix:	16°
Fruit flavor:	Very sweet
Fruit size:	Very big 28-30mm
Fruit color:	Intense red
Main Characteristics:	Mid large stem, uniform production

Pacific Red®

Breeder:	COT INTERNATIONAL
Licensor:	COT INTERNATIONAL
Tree type:	Vigorous, open
Pollinators:	Semi fertile
Blossom:	Early
Harvest period:	Mid May
Productivity:	Very good
Fruit set:	Fast
Brix:	18°
Fruit flavor:	Very sweet
Fruit size:	Very big 28-30mm
Fruit color:	Intense red
Main Characteristics:	Good resistance to cracking, storage resistance

Sweet Aryana®

Breeder:	Universita di Bologna - Alma Mater Studiorum
Licensor:	Universita di Bologna - Alma Mater Studiorum
Tree type:	Side branch
Pollinators:	Semi fertile
Blossom:	Early
Harvest period:	Mid May
Productivity:	Very good
Fruit set:	Fast
Brix:	17,6°
Fruit flavor:	Very sweet
Fruit size:	Very big 11g 28-30mm
Fruit color:	Shiny intense red
Main Characteristics:	Mid large stem, uniform production

Sweet Lorenz®

Breeder:	Universita di Bologna - Alma Mater Studiorum
Licensor:	Universita di Bologna - Alma Mater Studiorum
Tree type:	Side branch
Pollinators:	Sweet Gabriel, Sweet Aryana
Blossom:	Early
Harvest period:	Late May
Productivity:	Very good
Fruit set:	Fast
Brix:	18,5°
Fruit flavor:	Very sweet
Fruit size:	Very big 11,5g 28-30mm
Fruit color:	Intense dark red color
Main Characteristics:	Uniform ripening. High production. Extremely sweet fruit with a mid-large stalk

Sweet Gabriel®

Breeder:	Universita di Bologna - Alma Mater Studiorum
Licensor:	Universita di Bologna - Alma Mater Studiorum
Tree type:	Side branch
Pollinators:	Sweet Lorenz, Sweet Aryana
Blossom:	Early
Harvest period:	Early June
Productivity:	Very good
Fruit set:	Fast
Brix:	17,4°
Fruit flavor:	Very sweet
Fruit size:	Very big 12g 30-34mm
Fruit color:	Intense dark color
Main Characteristics:	Uniform production and good resistance to cracking. The tree is lively, with a lateral branch character, it quickly enters production and is very productive

Sweet Valina®

Breeder:	Universita di Bologna - Alma Mater Studiorum
Licensor:	Universita di Bologna - Alma Mater Studiorum
Tree type:	Vigorous
Pollinators:	Sweet Gabriel
Blossom:	Mid
Harvest period:	Early June
Productivity:	Very good
Fruit set:	Fast
Brix:	21,4°
Fruit flavor:	Very sweet
Fruit size:	Very big 13,9g 30-34mm
Fruit color:	Brilliant dark red
Main Characteristics:	Uniform ripening. Resistant to rain. A heart-shaped fruit with a bright dark red color and a long stem.

Sweet Saretta®

Breeder:	Universita di Bologna - Alma Mater Studiorum
Licensor:	Universita di Bologna - Alma Mater Studiorum
Tree type:	Vigorous
Pollinators:	Semi fertile
Blossom:	Mid
Harvest period:	Mid June
Productivity:	Very good
Fruit set:	Fast
Brix:	18,4°
Fruit flavor:	Very sweet
Fruit size:	Very big 12,5g 30-33mm
Fruit color:	Brilliant dark red
Main Characteristics:	Sweet delicious, good resistance to cracking

Sweet Stephany®

Breeder:	Universita di Bologna - Alma Mater Studiorum
Licensor:	Universita di Bologna - Alma Mater Studiorum
Tree type:	High Vigorous, open canopy, well-branched
Pollinators:	Semi fertile
Blossom:	Late
Harvest period:	Late June
Productivity:	Very good
Fruit set:	Fast
Brix:	18,4°
Fruit flavor:	Very sweet
Fruit size:	Very big 12,5g 30-33mm
Fruit color:	Shiny red skin
Main Characteristics:	Firm fleshed, sweet, good aromatic flavor

APRICOTS

Borsalino®

Breeder:	PSB Produccion Vegetal
Licensor:	PSB Produccion Vegetal
Tree type:	Mid Vigorous, half-open
Pollinators:	Self-fertile
Blossom:	Early
Harvest period:	Late April
Productivity:	Very good
Fruit set:	Very good
Brix:	11°
Fruit flavor:	Sweet
Fruit size:	2A
Fruit color:	Orange with red coloring in a large percentage
Main Characteristics:	Flesh resistant, low requirements in chilling hours

Sushi®

Breeder:	Benoit Escande
Licensor:	Benoit Escande
Tree type:	Mid, semi-orthobranh
Pollinators:	Self-fertile
Blossom:	Early
Harvest period:	Early May
Productivity:	High and fast
Fruit set:	Very good
Brix:	10°
Fruit flavor:	Aromatic and balanced
Fruit size:	2A
Fruit color:	Orange color with a slight red color
Main Characteristics:	Flesh resistant

Tsunami®

Breeder:	Benoit Escande
Licensor:	Benoit Escande
Tree type:	Mid Vigorous, semi-orthobranh
Pollinators:	Big Red
Blossom:	Early
Harvest period:	Mid May
Productivity:	High
Fruit set:	Very good
Brix:	12° - 14°
Fruit flavor:	Excellent, aromatic and sweet with a very good
Fruit size:	balance
Fruit color:	2A / 3A
Main Characteristics:	Orange with red color at 50-60% Very resistant to postharvest handling.

Wonder Cot®

Breeder:	SDR FRUIT LLC - H.Π.A
Licensor:	COT INTERNATIONAL
Tree type:	Mid Vigorous
Pollinators:	Lilly Cot, Magic Cot
Blossom:	Early
Harvest period:	Mid May
Productivity:	High
Chilling hours:	medium ; 500 - 600 Ch.Un.
Fruit set:	Very good
Brix:	12°
Fruit flavor:	Good, subacid
Fruit size:	2A / 3A
Fruit color:	Orange with red coloring in a high percentage
Main Characteristics:	Flesh resistant

Rubista®

Breeder:	Marie Frace Bois
Licensor:	I.P.S Montelimar France
Tree type:	Very Vigorous
Pollinators:	Self-fertile
Blossom:	Early
Harvest period:	Late May
Productivity:	High
Fruit set:	High and fast
Brix:	15°
Fruit flavor:	Excellent, aromatic and sweet with a good acid-sugar balance
Fruit size:	2A
Fruit color:	Bright red color all over the skin
Main Characteristics:	Aromatic early variety with different red color

Lilly Cot®

Breeder:	COT INTERNATIONAL
Licensor:	COT INTERNATIONAL
Tree type:	Very Vigorous
Pollinators:	Wonder Cot, Magic Cot
Blossom:	Early
Harvest period:	Early June
Productivity:	Good
Chilling hours:	low to medium ; 400 - 450 Ch.Un.
Fruit set:	Fast
Brix:	12°
Fruit flavor:	Excellent, aromatic and sweet with a very good balance
Fruit size:	2A / 3A in oval shape
Fruit color:	Light orange
Main Characteristics:	Excellent taste, variety that goes into production quickly, flesh resistant, resistance to storage

Big Red®

Breeder:	Benoit Escande
Licensor:	Benoit Escande
Tree type:	Very Vigorous
Pollinators:	Self-fertile
Blossom:	Early
Harvest period:	Early June
Productivity:	Very good
Fruit set:	Fast
Brix:	14°
Fruit flavor:	Very good taste with juicy and aromatic flesh
Fruit size:	2A / 3A
Fruit color:	Orange with red color reaching 70%
Main Characteristics:	Excellent color for its time. Very well maintained for its time.

APRICOTS

Cocot®

Breeder:	COT INTERNATIONAL
Licensor:	COT INTERNATIONAL
Tree type:	Very Vigorous
Pollinators:	Self-fertile
Blossom:	Early
Harvest period:	Mid June
Productivity:	Very good
Fruit set:	Very fast
Brix:	14°
Fruit flavor:	Very good flavor
Fruit size:	2A / 3A
Fruit color:	Dark orange
Main Characteristics:	Good resistance to cracking. Flesh resistant

Monster Cot®

Breeder:	COT INTERNATIONAL
Licensor:	COT INTERNATIONAL
Tree type:	Very Vigorous
Pollinators:	Lilly Cot, Magic Cot
Blossom:	Early
Harvest period:	Late June
Productivity:	Good
Fruit set:	high, more than 1000 Ch.Un.
Brix:	Very fast
Fruit flavor:	14°
Fruit size:	Very sweet
Fruit color:	3A / 4A
Main Characteristics:	Dark orange with a slight red color Storage resistance, and excellent flavor

Rougecot®

Breeder:	COT INTERNATIONAL
Licensor:	COT INTERNATIONAL
Tree type:	Very Vigorous
Pollinators:	Self-fertile
Blossom:	Early
Harvest period:	Mid June
Productivity:	Very good
Fruit set:	Very fast
Brix:	15°
Fruit flavor:	Excellent and sweet with aromatic flesh
Fruit size:	2A / 3A
Fruit color:	Dark red color all over the skin
Main Characteristics:	Good resistance to cracking. Flesh resistant.

Lady Cot®

Breeder:	COT INTERNATIONAL
Licensor:	COT INTERNATIONAL
Tree type:	Very Vigorous
Pollinators:	Self-fertile
Blossom:	Late
Harvest period:	Late June to Early July
Productivity:	Good and stable
Fruit set:	medium ; 500 - 600 Ch.Un.
Brix:	Very fast
Fruit flavor:	15°
Fruit size:	Very sweet
Fruit color:	3A / 4A
Main Characteristics:	Dark orange with a bright red color Excellent taste, fast production, flesh resistant,

Nelson®

Breeder:	PSB Production Vegetal
Licensor:	PSB Production Vegetal
Tree type:	Vigorous, semi-open
Pollinators:	Self-fertile
Blossom:	Late
Harvest period:	Mid July
Productivity:	Very good and stable
Fruit set:	Very fast
Brix:	15°
Fruit flavor:	Very sweet
Fruit size:	2A / 3A
Fruit color:	Intense red with orange color
Main Characteristics:	Excellent taste, fast production, flesh resistant, storage resistance

Farbaly®

Breeder:	Marie France Bois
Licensor:	I.P.S Montelimar France
Tree type:	Vigorous
Pollinators:	Self-fertile
Blossom:	Late
Harvest period:	Late July
Productivity:	Very good and stable
Fruit set:	Very fast
Brix:	14°
Fruit flavor:	Sweet
Fruit size:	2A / 3A
Fruit color:	Orange, with red color
Main Characteristics:	Storage resistance, and good flavor

Farbela®

Breeder:	Marie France Bois
Licensor:	I.P.S Montelimar France
Tree type:	Vigorous
Pollinators:	Self-fertile
Blossom:	Late
Harvest period:	Late July
Productivity:	Good and stable
Fruit set:	Very fast
Brix:	14°
Fruit flavor:	Sweet
Fruit size:	3A
Fruit color:	Orange, with red color
Main Characteristics:	Storage resistance, and excellent taste

Madrigal®

Breeder:	PSB Production Vegetal
Licensor:	PSB Production Vegetal
Tree type:	Vigorous
Pollinators:	Self-fertile
Blossom:	Late
Harvest period:	Early August
Productivity:	Very good and stable
Fruit set:	Very fast
Brix:	14°
Fruit flavor:	Sweet
Fruit size:	2A / 3A
Fruit color:	Red with orange color
Main Characteristics:	Flesh resistant and storage

Patagonia®

Breeder:	PSB Producción Vegetal
Licensor:	PSB Producción Vegetal
Tree type:	Vigorous
Pollinators:	Self fertile
Blossom:	Early
Harvest period:	Early May
Productivity:	Very good
Fruit set:	Fast
Brix:	11°
Fruit flavor:	Sweet, sour
Fruit size:	A
Fruit color:	Bright red, yellow flesh
Main Characteristics:	Resistant to rain cracking. Its firmness is very good with no sugar spots

Caracas®

Breeder:	PSB Producción Vegetal
Licensor:	PSB Producción Vegetal
Tree type:	Vigorous
Pollinators:	Self fertile
Blossom:	Early
Harvest period:	Late May
Productivity:	Very good
Fruit set:	Fast
Brix:	11°
Fruit flavor:	Sweet, sour
Fruit size:	A / 2A
Fruit color:	Dark red, yellow flesh
Main Characteristics:	Excellent early season variety with very good fruit size and excellent production. It has acids with a good balance of sugars

Copacabana®

Breeder:	PSB Producción Vegetal
Licensor:	PSB Producción Vegetal
Tree type:	Vigorous
Pollinators:	Self fertile
Blossom:	Early
Harvest period:	Mid May
Productivity:	Very good
Fruit set:	Fast
Brix:	11°
Fruit flavor:	Sweet, sour
Fruit size:	A / 2A
Fruit color:	Dark red, yellow flesh
Main Characteristics:	Excellent early season variety with very good fruit size and excellent production. It has high acids with a good balance of sugars

Early Bomba®

Breeder:	Zaiger Genetics - USA California
Licensor:	International Plant Selection
Tree type:	Vigorous
Pollinators:	Self fertile
Blossom:	Early
Harvest period:	Early June
Productivity:	Very good
Fruit set:	Fast
Brix:	11°
Fruit flavor:	Sweet, sour
Fruit size:	A / 2A
Fruit color:	Dark red, yellow flesh
Main Characteristics:	Excellent early season variety with very good fruit size and excellent production.

Honey Top®

Breeder:	Zaiger Genetics - USA California
Licensor:	International Plant Selection
Tree type:	Vigorous
Pollinators:	Self fertile
Blossom:	Early
Harvest period:	Early - mid June
Productivity:	Very good
Fruit set:	Fast
Brix:	12°
Fruit flavor:	Sweet
Fruit size:	2A
Fruit color:	Dark red, yellow flesh
Main Characteristics:	Very large caliber variety. Fruit beautiful well-shaped core without tearing

Big Glory®

Breeder:	Zaiger Genetics - USA California
Licensor:	International Plant Selection
Tree type:	Vigorous
Pollinators:	Self fertile
Blossom:	Early
Harvest period:	Mid June
Productivity:	Very good
Fruit set:	Fast
Brix:	12°
Fruit flavor:	Sweet, sour
Fruit size:	2A
Fruit color:	Dark red, bright
Main Characteristics:	Very large caliber variety. Fruit well formed without rust. The core is cohesive

Atanais®

Breeder:	PSB Producción Vegetal
Licensor:	PSB Producción Vegetal
Tree type:	Vigorous
Pollinators:	Self fertile
Blossom:	Early
Harvest period:	Late June
Productivity:	Very good
Fruit set:	Fast
Brix:	12°
Fruit flavor:	Sweet, sour
Fruit size:	2A
Fruit color:	Dark red, bright
Main Characteristics:	Very large caliber variety. Fruit beautiful well-shaped core without tearing

Honey Bowl®

Breeder:	Zaiger Genetics - USA California
Licensor:	International Plant Selection
Tree type:	Vigorous
Pollinators:	Self fertile
Blossom:	Early
Harvest period:	Late June
Productivity:	Very good
Fruit set:	Fast
Brix:	12°
Fruit flavor:	Sweet
Fruit size:	2A
Fruit color:	Dark red, bright
Main Characteristics:	Very large caliber variety. Bright red fruit well formed and the core is cohesive

Clariss®

Breeder:	PSB Producción Vegetal
Licensor:	PSB Producción Vegetal
Tree type:	Vigorous
Pollinators:	Self fertile
Blossom:	Early
Harvest period:	Mid July
Productivity:	Very good
Fruit set:	Fast
Brix:	12°
Fruit flavor:	Sweet
Fruit size:	2A
Fruit color:	Dark red, bright
Main Characteristics:	Unique color, large size

Honey Sugar®

Breeder:	Zaiger Genetics - USA California
Licensor:	International Plant Selection
Tree type:	Vigorous
Pollinators:	Self fertile
Blossom:	Mid
Harvest period:	Late July
Productivity:	Very good
Fruit set:	Fast
Brix:	14°
Fruit flavor:	Very sweet with an aromatic flavor
Fruit size:	2A
Fruit color:	Dark red, bright
Main Characteristics:	Unique color, large size

Max®

Breeder:	Az. Sper. Marani - Ravenna
Licensor:	CRPV
Tree type:	Vigorous
Pollinators:	Self fertile
Blossom:	Mid
Harvest period:	Early August
Productivity:	Very good
Fruit set:	Fast
Brix:	14°
Fruit flavor:	Very sweet with an aromatic flavor
Fruit size:	3A
Fruit color:	Dark red, bright
Main Characteristics:	Excellent size and color for its time. Very good and stable production

Honey Late®

Breeder:	Zaiger Genetics - USA California
Licensor:	International Plant Selection
Tree type:	Vigorous
Pollinators:	Self fertile
Blossom:	Late
Harvest period:	Late August
Productivity:	Very good
Fruit set:	Fast
Brix:	14°
Fruit flavor:	Very sweet with an aromatic flavor
Fruit size:	2A
Fruit color:	Dark red, bright
Main Characteristics:	Unique color, large size

Diablotina®

Breeder:	PSB Producción Vegetal
Licensor:	PSB Producción Vegetal
Tree type:	Vigorous
Pollinators:	Self fertile
Blossom:	Late
Harvest period:	Mid August
Productivity:	Very good
Fruit set:	Fast
Brix:	17°
Fruit flavor:	Very sweet with an aromatic flavor
Fruit size:	A / 2A
Fruit color:	Bright dark red, red flesh
Main Characteristics:	Variety with strong agronomic potential and juicy dark red flesh

Pampana®

Breeder:	PSB Produccion Vegetal
Licensor:	PSB Produccion Vegetal
Tree type:	Vigorous, semi-orthobranh
Pollinators:	Semi fertile
Blossom:	Mid
Harvest period:	Early June
Productivity:	Very good
Fruit set:	Fast
Brix:	13°
Fruit flavor:	Very good, aromatic, subacid
Fruit size:	A / 2A
Fruit color:	Intense red
Main Characteristics:	Variety with strong agronomic potential, requires low chilling hours and has high productivity

Arizona®

Breeder:	PSB Produccion Vegetal
Licensor:	PSB Produccion Vegetal
Tree type:	Vigorous, semi-open
Pollinators:	Semi fertile
Blossom:	Mid
Harvest period:	Mid June
Productivity:	Very good
Fruit set:	Fast
Brix:	13°
Fruit flavor:	Very good, aromatic, subacid
Fruit size:	A / 2A
Fruit color:	Intense red
Main Characteristics:	Good, aromatic, sub acid with high production interesting for its picking window

Soledora®

Breeder:	PSB Produccion Vegetal
Licensor:	PSB Produccion Vegetal
Tree type:	Standard, semi-orthobranh
Pollinators:	Semi fertile
Blossom:	Mid
Harvest period:	Late June
Productivity:	Very good
Fruit set:	Fast
Brix:	13°
Fruit flavor:	Amazing, very sweet and sour
Fruit size:	2A
Fruit color:	Intense red
Main Characteristics:	Variety with strong agronomic potential, requires low chilling hours and has high productivity

Lambada®

Breeder:	PSB Produccion Vegetal
Licensor:	PSB Produccion Vegetal
Tree type:	Vigorous, semi-open
Pollinators:	Semi fertile
Blossom:	Mid
Harvest period:	Mid July
Productivity:	Very good
Fruit set:	Fast
Brix:	13°
Fruit flavor:	Amazing, very sweet and sour
Fruit size:	2A
Fruit color:	Intense red
Main Characteristics:	10 days before Sweet Dream

Sweet Dream®

Breeder:	Zaiger Genetics - USA California
Licensor:	International Plant Selection
Tree type:	Very Vigorous, orthobranh
Pollinators:	Semi fertile
Blossom:	Mid
Harvest period:	Late July
Productivity:	Very good
Fruit set:	Fast
Brix:	13°
Fruit flavor:	Amazing, very sweet
Fruit size:	A / 2A
Fruit color:	Yellow
Main Characteristics:	Variety with strong agronomic potential, requires low chilling hours and has high productivity

Sweet Juana®

Breeder:	Zaiger Genetics - USA California
Licensor:	International Plant Selection
Tree type:	Very Vigorous, orthobranh
Pollinators:	Semi fertile
Blossom:	Late
Harvest period:	Late August
Productivity:	Very good
Fruit set:	Fast
Brix:	13°
Fruit flavor:	Amazing, very sweet
Fruit size:	2A
Fruit color:	Intense red
Main Characteristics:	Variety with strong agronomic potential, requires low chilling hours and has high productivity

Sauzee 665®

Breeder:	Zaiger Genetics - USA California
Licensor:	International Plant Selection
Tree type:	Vigorous
Pollinators:	Self fertile
Blossom:	Late
Harvest period:	Late July
Productivity:	High
Fruit set:	Fast
Brix:	16°
Fruit flavor:	Sweet balanced taste
Fruit size:	A / 2A
Fruit color:	Shiny red, white flesh
Main Characteristics:	Very attractive coloration with strong aromatic components

Tintosa®

Breeder:	PSB Producción Vegetal
Licensor:	PSB Producción Vegetal
Tree type:	Vigorous, half-straight
Pollinators:	Self fertile
Blossom:	Early
Harvest period:	Mid June
Productivity:	Very good
Fruit set:	Fast
Brix:	15°
Fruit flavor:	Very Sweet and very crunchy
Fruit size:	2A
Fruit color:	Dark red skin with white flesh
Main Characteristics:	Flat Nectarine with shiny red colour, nice pistilar closure

Sauzee 660®

Breeder:	Zaiger Genetics - USA California
Licensor:	International Plant Selection
Tree type:	Vigorous
Pollinators:	Self fertile
Blossom:	Mid
Harvest period:	Mid August
Productivity:	High
Fruit set:	Fast
Brix:	16°
Fruit flavor:	Very sweet with an aromatic flavor
Fruit size:	2A / 3A
Fruit color:	Shiny red on a creamy background, white flesh
Main Characteristics:	Very productive and size of high importance

Canoppe®

Breeder:	PSB Producción Vegetal
Licensor:	PSB Producción Vegetal
Tree type:	Vigorous, half-straight
Pollinators:	Self fertile
Blossom:	Early
Harvest period:	Early August
Productivity:	Very good
Fruit set:	Fast
Brix:	16-18°
Fruit flavor:	Very Sweet, sub-acid
Fruit size:	A / 2A
Fruit color:	Dark red skin with white flesh
Main Characteristics:	Flat Nectarine with shiny red colour and without sugar spots, perfect pistilar closure

Early Giulia®

Breeder:	Universita di Bologna - Alma Mater Studiorum
Licensor:	Universita di Bologna - Alma Mater Studiorum
Tree type:	Mid vigour, compatible with quince rootstocks.
Pollinators:	Debby Green , Coscia, Santa Maria
Blossom:	Mid
Harvest period:	Late July
Productivity:	Very good
Fruit set:	Fast
Brix:	13°
Fruit flavor:	White, crispy and juicy flesh with a fine texture. Sweet and sour flavor
Fruit size:	Mid-large (over 200g) typical pear shape
Fruit color:	Green skin, yellow when fully ripe with 20-30%
Main Characteristics:	over- colour Good storability in cold room at -1°C (about 6 months),tolerant in Brown Spot and low sensitivity to Erwinia Amylovora

Debby Green®

Breeder:	Universita di Bologna - Alma Mater Studiorum
Licensor:	Universita di Bologna - Alma Mater Studiorum
Tree type:	Mid slightly compact, compatible with quince rootstocks
Pollinators:	Early Giulia, Coscia, Santa Maria
Blossom:	Mid
Harvest period:	Early August
Productivity:	Very good
Fruit set:	Fast
Brix:	13°
Fruit flavor:	White juicy flesh that melts in the mouth with a delicate texture. Sweet and sour flavor
Fruit size:	Mid-sized (180-200 g), edible
Fruit color:	Green, yellow-green when fully ripe with slight rust
Main Characteristics:	Good storability in cold room at -1°C (about 6 months) low susceptibility to Brown Spot

Lucy Sweet®

Breeder:	Universita di Bologna - Alma Mater Studiorum
Licensor:	Universita di Bologna - Alma Mater Studiorum
Tree type:	Mid-lively, compatible with quince rootstocks
Pollinators:	Lucy Red, Coscia, Santa Maria
Blossom:	Mid
Harvest period:	Early August
Productivity:	Very good
Fruit set:	Fast
Brix:	13°
Fruit flavor:	Juicy flesh with a fine texture. Very sweet flavor. Edible even when crunchy at harvest time.
Fruit size:	Mid size (180-200 g)
Fruit color:	Green even when fully ripe, with light rust
Main Characteristics:	Good storability in cold room at -1°C (about 6 months),tolerant in Brown Spot and low sensitivity to Erwinia Amylovora

Lucy Red®

Breeder:	Universita di Bologna - Alma Mater Studiorum
Licensor:	Universita di Bologna - Alma Mater Studiorum
Tree type:	Moderate intensity, low compatibility with quince rootstocks
Pollinators:	Lucy sweet, Coscia, Santa Maria
Blossom:	Late
Harvest period:	Early September
Productivity:	Very good
Fruit set:	Fast
Brix:	13°
Fruit flavor:	White, crisp, juicy flesh with mid fine texture, well-balanced flavor, slightly aromatic
Fruit size:	Large (200-250g)
Fruit color:	Smooth with a bright red color on 90% of the surface. Small freckles and light rusting in the cap and stem area (20% of the surface)
Main Characteristics:	Good storability in cold room at -1°C (about 6 months) low susceptibility to Brown Spot

Earliqueen®

Breeder:	Marie France Bois
Licensor:	I.P.S. Montelimar France
Tree type:	Vigorous, semi-orthobranh
Pollinators:	Crimson Glo
Blossom:	Early
Harvest period:	Early June
Productivity:	Very good
Fruit set:	Fast
Brix:	11°
Fruit flavor:	Sweet
Fruit size:	50-55mm
Fruit color:	Yellow flesh
Main Characteristics:	Flesh resistant

Crimson Glo®

Breeder:	Marie France Bois
Licensor:	I.P.S. Montelimar France
Tree type:	Vigorous, semi-orthobranh
Pollinators:	Earliqueen
Blossom:	Mid
Harvest period:	Early July
Productivity:	Very fast
Fruit set:	Fast
Brix:	13°
Fruit flavor:	Sweet
Fruit size:	60-70mm
Fruit color:	Red flesh
Main Characteristics:	Flesh resistant

Pallatina®

Breeder:	PSB Producción Vegetal
Licensor:	PSB Producción Vegetal
Tree type:	Vigorous, semi-orthobranh
Pollinators:	CR45-4, Earliqueen
Blossom:	Mid
Harvest period:	Early July
Productivity:	Very good
Fruit set:	Fast
Brix:	16°
Fruit flavor:	Sweet, Sour
Fruit size:	60-65mm
Fruit color:	Red flesh
Main Characteristics:	Flesh resistant, exceptional taste

Clone Vitro Mars®

Breeder:	Random seedling
Licensor:	VITRO HELLAS S.A
Tree type:	Vigorous
Pollinators:	Self fertile
Blossom:	Early
Harvest period:	Early September
Productivity:	Very good
Fruit set:	Very fast
Fruit flavor	Same as Ferragnes
Fruit size:	Large, same as Ferragnes
Main Characteristics:	Self-fertile almond variety. Good pollinator for Ferragnes

The almond variety Clone Vitro MARS®, is a variety that originates from a Ferragnes seedling. It is product of the "GrEatFruit" Research Program in which Vitro Hellas participates.

100 ha
fruit tree & kiwi nursery

Hayward CLONE 8

Blossom:	Early May. Duration 10 days
Harvest period:	Early October
Productivity:	Very good
Fruit set:	Fast
Fruit flavor:	Sweet, sour
Fruit size:	Mid fruit weight (120-160g)
Fruit color:	Green
Main Characteristics:	It produces single fruits and the appearance of deformed fruits is rare

Boerica®

Licensor:	Jingold
Tree type:	Same with Hayward
Blossom:	Same with Hayward
Harvest period:	Very good
Productivity:	Fast
Fruit set:	Sweet, sour
Fruit flavor:	Large. Cylindrical and elongated and a length/diameter ratio of 1.44 (Hayward's is 1.26)
Fruit size:	ratio of 1.44 (Hayward's is 1.26)
Fruit color:	Green
Main Characteristics:	High tasty qualitative characteristics sweet and juicy flesh. High content of vitamin C

Jin Tao®

Licensor:	Jingold
Tree type:	Less vigorous from Hayward. Short internode 80-90% of buds open a few days before Hayward
Blossom:	1 week before Hayward
Harvest period:	2 weeks before Hayward
Productivity:	Very good
Fruit set:	Fast
Fruit flavor:	Sweet
Fruit size:	Medium (80 - 130g)
Fruit color:	Yellow
Main Characteristics:	High content of vitamin C (145% more than greens), polyphenols (80% more) and potassium. Cold hours: 350-400. Over 6 months in the fridge

Jin Yan®

Licensor:	Jingold
Tree type:	Same with Hayward. Short internode 80-90% of buds open a few days before Hayward
Blossom:	10 days before Hayward
Harvest period:	A few days before Hayward
Productivity:	Very good
Fruit set:	Fast
Fruit flavor:	Sweet
Fruit size:	Mid - Large (larger than Hayward) 140-180gr
Fruit color:	Yellow
Main Characteristics:	High content of vitamin C +60%, Calcium +30% and Potassium +45% Cold hours: 300-350. Up to 8 months in the fridge

Dong Hong®

Licensor:	Jingold
Tree type:	Mid - high Vigorous 10 - 15 days before Hayward
Blossom:	15 days before Hayward Duration 6-7 days.
Harvest period:	Super early, 30 days before Jin Tao
Productivity:	Very good
Fruit set:	Fast
Fruit flavor:	Sweet
Fruit size:	Medium (80-100g)
Fruit color:	Red
Main Characteristics:	High content of dry matter, high sugars, sweet and intense flavor. High content of vitamin C (120-150 mg/100gr). Over 5 months in the fridge
